# STORY NINJAS

Website Design & Publishing  
<https://www.story-ninjas.com/>

Here at Story Ninjas, we understand there are many Website Design & Marketing Companies. It's hard to find website companies small enough to give that personal touch AND quality work that won't cost a small fortune!

Let's say you just want something simple, fast! So you outsource your website design to the least expensive freelancer possibly for less than \$100 (and possibly to a person in another country who may or may not have copywriting experience). More often than not we're called in to fix/redesign many of these sites.

Story Ninjas provides a money-back guarantee if we don't meet your needs in the first few revisions. We want you to have the best website to represent your business.

Here's What We Offer:

1. Website Design/Redesign
2. Milestones/Structured Timeline
3. Training Sessions
4. Digital Marketing Consultation
5. Pricing Plans & Flexibility to Meet Your Needs

**Visit Our Website for a FREE CONSULTATION!**
